

Guaranteed Analysis Per Scoop (625mg):	
All quantities are Minimum Unless Otherwise Stated:	
Crude Fiber (max.)	59%
Moisture (max.)	1.5%
Inulin from chickory root*	432 mg
Protease* (Aspergillus oryzae)	3706 HUT
Bromelain* (Pineapple Stem Ananas Comosus)	1,000,000 FCPU
Lipase* (Rhizopus oryzae)	1,000 LU
Amylase* (Aspergillus oryzae)	1500 DU
*Not recognized as an essential nutrient by AAFCO Dog or Cat Food Nutrient profiles.	

Contains a source of Amylase which can hydrolyze starch. 1 USP Unit decomposes starch at an initial rate such that 0.16 ug Eq of glycosidic linkage is hydrolyzed per min under standard conditions of the assay. Contains a source of Lipase which can hydrolyze fats and triglycerides. 1 USP Unit liberates 1 ug Eq of acid per min at a pH of 9.0 at 37°C. Contains a source of Bromelain which can hydrolyze protein. 1 GDU hydrolyzes 1 mg of amino nitrogen from gelatin in 20 min at pH 4.5 at 45°C. Contains a source of Protease which can hydrolyze proteins. 1 HUT unit of protease activity is the amount of enzyme that produces, in 1 min. under standard conditions, a hydrolysate whose absorbance at 275 nm is the same as a solution containing 1.10 ug/ml of tyrosine in 0.006N HCl acid.

Calorie Content: (calculated)
4000 kcal ME/kg and 2.5 kcal ME/scoop

Manufactured Exclusively for
NWC Naturals® Pet Products
San Juan Capistrano, CA 92675 1-888-207-3480

Ingredients: Chickory root (probiotic dietary fiber), Dried Amylase Aspergillus oryzae fermentation extract, Dried Protease (4.5) Aspergillus oryzae fermentation extract, Dried Lipase Rhizopus oryzae fermentation extract, Dried Maltogenic Alpha-Amylase Aspergillus oryzae fermentation extract, Dried Pectinase aspergillus niger fermentation extract, Dried Glucoamylase aspergillus niger fermentation extract, Dried Protease (3.0) aspergillus niger fermentation extract, Bromelain, Dried Cellulase aspergillus niger fermentation extract, Dried Hemicellulase aspergillus niger fermentation extract, Dried Beta-glucanase Trichoderma reesei fermentation extract, Dried Protease (6.0) Aspergillus oryzae fermentation extract, Dried Alpha-Galactosidase aspergillus niger fermentation extract, Dried Lactase Aspergillus oryzae fermentation extract, Dried Phytase Aspergillus niger fermentation extract, Dried Peptidase Aspergillus oryzae fermentation extract, Beet (root), Calcium Amino Acid Chelate, Calcium Carbonate, Magnesium Amino Acid Chelate.

All chelated minerals are Albion TRAACS®.

100 cups
of pet food

Total-Zymes® has a new look, same great product, but the labeling is now complying with AAFCO and NASC labeling guidelines. Total-Zymes® supports: Good Digestion, A Strong Immune System, Healthy Skin, Smaller Stools, Shiny Healthy Coat, Healthy Energy Levels, Normal Bowel Movements, Normal Gas, Delivery of Nutrients.

For Both Dogs and Cats

Total-Zymes® is designed for daily use at every meal. It aids digestion and supports a healthy digestive system. For complete digestion you must have a specific enzyme to digest each type of food ingredient. A digestive product that contains only four, five or six enzymes will do a poor job digesting the complex ingredients of today's high-quality pet food.

We at NWC Naturals® Pet Products formulated Total-Zymes® with a special blend of sixteen powerful vegetarian enzymes to completely digest and deliver all the nutrients of today's modern pet diet on a cellular level.

One scoop of Total-Zymes® will digest one cup of any pet food. Total-Zymes® also supplies prebiotics. We also have included bromelain from pineapples as a systemic enzyme.

Total-Zymes® gives you a unique advantage not available from anyone else. We utilize L.E.A.D.S.® which stands for "Live Enzyme Activated Delivery System®". This insures nutrient delivery on a cellular level. Total-Zymes® uses only the highest grade enzymes and patented amino acid chelated minerals to give your pet every advantage. For superior results also use the companion pro-biotic supplement Total-Biotics® along with Total-Zymes® at every meal. They are both formulated to work together to give your pet every advantage for a long and healthy life.

"Healthy Pets Live Longer"

Feeding Directions for Dogs:

Add one level scoop (approximately 625 mg) of Total-Zymes® to every cup of dog food fed, every time.

Feeding Directions for Cats:

Add one level scoop (approximately 625 mg) of Total-Zymes® to every cup of cat food fed, every time.

This product is intended for intermittent or supplemental feeding only.

For your convenience a free scoop is inside every jar of Total-Zymes® (it may have settled to the bottom during shipment).

NWC Naturals® Pet Products uses only AAFCO approved stabilized live enzymes that can be stored at room temperature.
