

For Both Dogs and Cats Total-Biotics® Supports:

- Good Digestion
- A strong Immune System
- Normal Bowel Movements
- Normal Bacterial Balance
- Control of Excess Gas
- Manufacture of B Vitamins
- Candida Control
- Reduced Food Intolerance
- Optimal Health

Total-Biotics® is designed for daily use at every meal. It aids digestion and supports a healthy gut. It may also be used in larger doses to replenish the normal pro-biotic balance in times of excess stress or exposure to antibiotics. Many things can disrupt the intestinal probiotic balance: Stress, poor diet, pollutants, environmental changes and prescription drugs. Probiotic imbalances can contribute to a host of issues like vomiting, loose stool, poor nutrition absorption, dull coat, low energy and more.

Total-Biotics® is the only pet probiotic that contains a patented stabilized glutamine to actually heal the intestinal tract. That's why our long term results are so outstanding. For pets to maintain a healthy body, they need to consume daily substantial amounts of friendly probiotic bacteria. **Total-Biotics®** supplies just the right amount of fourteen different species of live Pro-Biotics and prebiotics, perfectly matched to how much food your pet consumes every day.

Total-Biotics® gives you a unique advantage not available from anyone else. We utilize **L.E.A.D.S.®** which stands for "Live Enzyme Activated Delivery System®". The **L.E.A.D.S.®** system insures nutrient delivery on a cellular level.

Total-Biotics® uses only human grade probiotics, enzymes and patented amino acid chelated minerals to give your pet every advantage. For superior results also use the companion digestive enzyme supplement **Total-Zymes®** right with **Total-Biotics®**. They are formulated to work together to give your pet every advantage for a long and healthy life. All ingredients are NON-GMO and safe for the whole family.
